

25 October 1963

MEMORANDUM FOR THE RECORD

SUBJECT: Construction of Headquarters Building

STAT

Today-25 October-I talked with [redacted]
for a few minutes concerning the Headquarters building. I learned from
these men that the air conditioning system is giving a good deal of
trouble and that the Agency may be forced to incur a sizable obligation
through GSA to have the problems corrected. Inference was this could
easily run into a sizable six figure amount. For this reason, we should
be concious in committing to the Bureau any amounts for ^{probable} ~~problem~~ savings
other than the \$1,732,000 reflected in the budget document. Perhaps
we should hang onto this for sometime yet until this unsatisfactory
condition has been corrected.

Remarks:

The following notes should be added to the attached:

1. Mr. Garrison is said to have a study in progress looking toward the construction of an industrial type building at Langley to house PSD and possibly other offices.
2. On 24 October, Mr. Kirkpatrick is said to have stated that the Director is moving more and more toward a partial hardening of the Langley site.
